Self-studying

## Profile

Experienced and passionate Software Developer with over 4 years of experience always looking for new opportunities to learn and apply myself. Experienced in creating clean, scalable Object-oriented code.

## Employment History

### Frontend Engineer, Gracious, Amsterdam

December 2020 — Present

- Create and maintain websites for various clients
- Create re-usable components, hooks and libraries to be used in a custom package
- Primarily worked via SCRUM (Jira)

### Software Developer, WebAds, Amsterdam

August 2018 — November 2020

- Worked well independently and on a team to solve problems.
- Served as a friendly, hardworking, and punctual employee.
- Organized and prioritized work to complete assignments in a timely, efficient manner.
- Maintained and thought of new modules for a custom advertisement tagging library.
- Created and maintained a self-built consentUI/CMP to communicate your opt-in/opt-out signals with React/NodeJS ([example 1](#) / [example 2](#)).
- Created and improved positioning algorithms for achieving optimal advertisement view-ability rates, examples of this can be found on aforementioned examples.
- Created and maintained APIs with NodeJS/Express.

### Security Host, D&B, Amsterdam

May 2015 — September 2018

- Served as a facilitator for problem-solving and peaceful resolutions.
- Worked with a high level of confidence and ambition.
- Maintained positivity and poise, even in stressful situations.

Worked for:

- VodafoneZiggo
- WTC Amsterdam-Zuid

- BNY Mellon
